WATERWISE® KIT

For those consumers who have container gardens, the WaterWise® Kit is a life saver. Just hook it up to an outside faucet, have the tubing run to each container and each plant will be properly hydrated to grow strong and healthy. It works on a drip system so they will receive small amounts of water over a period of time and not be overwatered. Up to 10 potted plants can be accommodated per kit. Consumers love the idea of not having to water each plant individually, just simply turn on the faucet and let the WaterWise® Kit do the rest.

Sold as a case of 4

Recommendations:

- » 10-12" container 1 dripper
- » 14-20" container 2 drippers
